

Staff Technical Consultant

IQS is currently looking to find an exceptional ENTRY LEVEL talent to join their professional services consulting organization. The company very much wants to hire someone who has recently graduated with a Bachelor's degree or higher in a computer or engineering related field.

This is an excellent opportunity to apply the skills you learned in the classroom with a growing company. You will receive formal training on the product line and learn from other, experienced consultants. Once you are fully up to speed on the product (approximately 3 months) you will either work out of the office or travel for various customer projects.

Requires:

- BS Degree or higher in a technical discipline (IT, CS, Eng...) with up to two years industry experience
- 3.0/4.0 Grade Point Average or higher
- Excellent people and communication skills
- Operating Systems (Windows 9x/2000/2003 and/or Unix)
- Software installation/troubleshooting
- Database Administration. MS-SQL and/or Oracle

Pluses:

- Programming skills.
- Crystal Reports Report Writing
- Project Management
- Hands on experience within one of the following:
- Applications Integration
- Software Technical Support
- Software Development
- Help Desk
